

CANINE REPRODUCTION

SELECTING REPRODUCTIVELY Healthy Dogs

Dr Emmanuel FONTAINE

DVM, MSc, PhD, Dipl European College of Animal Reproduction

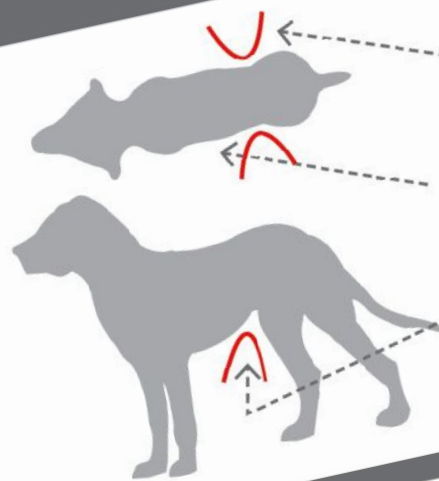

What Does Healthy Look Like?

Dogs and cats with a healthy body condition will have:

1. A visible waist (top view)
2. Ribs can be felt when you rub along their sides
3. A visible abdominal tuck (side view)

Your veterinary team can help you determine the body condition of your pet and how to properly manage their weight to keep them healthy.

IDEAL BODY CONDITION

1. Waist observed behind ribs

2. Ribs can be felt when you rub along their sides

3. Abdominal tuck

ROYAL CANIN®

ROYAL CANIN®

BODY CONDITION SCORE > CANINE

TOO THIN

1

- Ribs, spine and pelvic bones are clearly evident
- No discernible body fat
- Obvious loss of muscle mass

2

- Ribs, spine and pelvic bones are easily visible
- No palpable fat
- Some bony prominences
- Minimal loss of muscle mass

3

- Ribs easily palpable and may be visible with no palpable fat
- Tops of lumbar vertebrae visible and pelvic bones becoming prominent
- Obvious waist and abdominal tuck

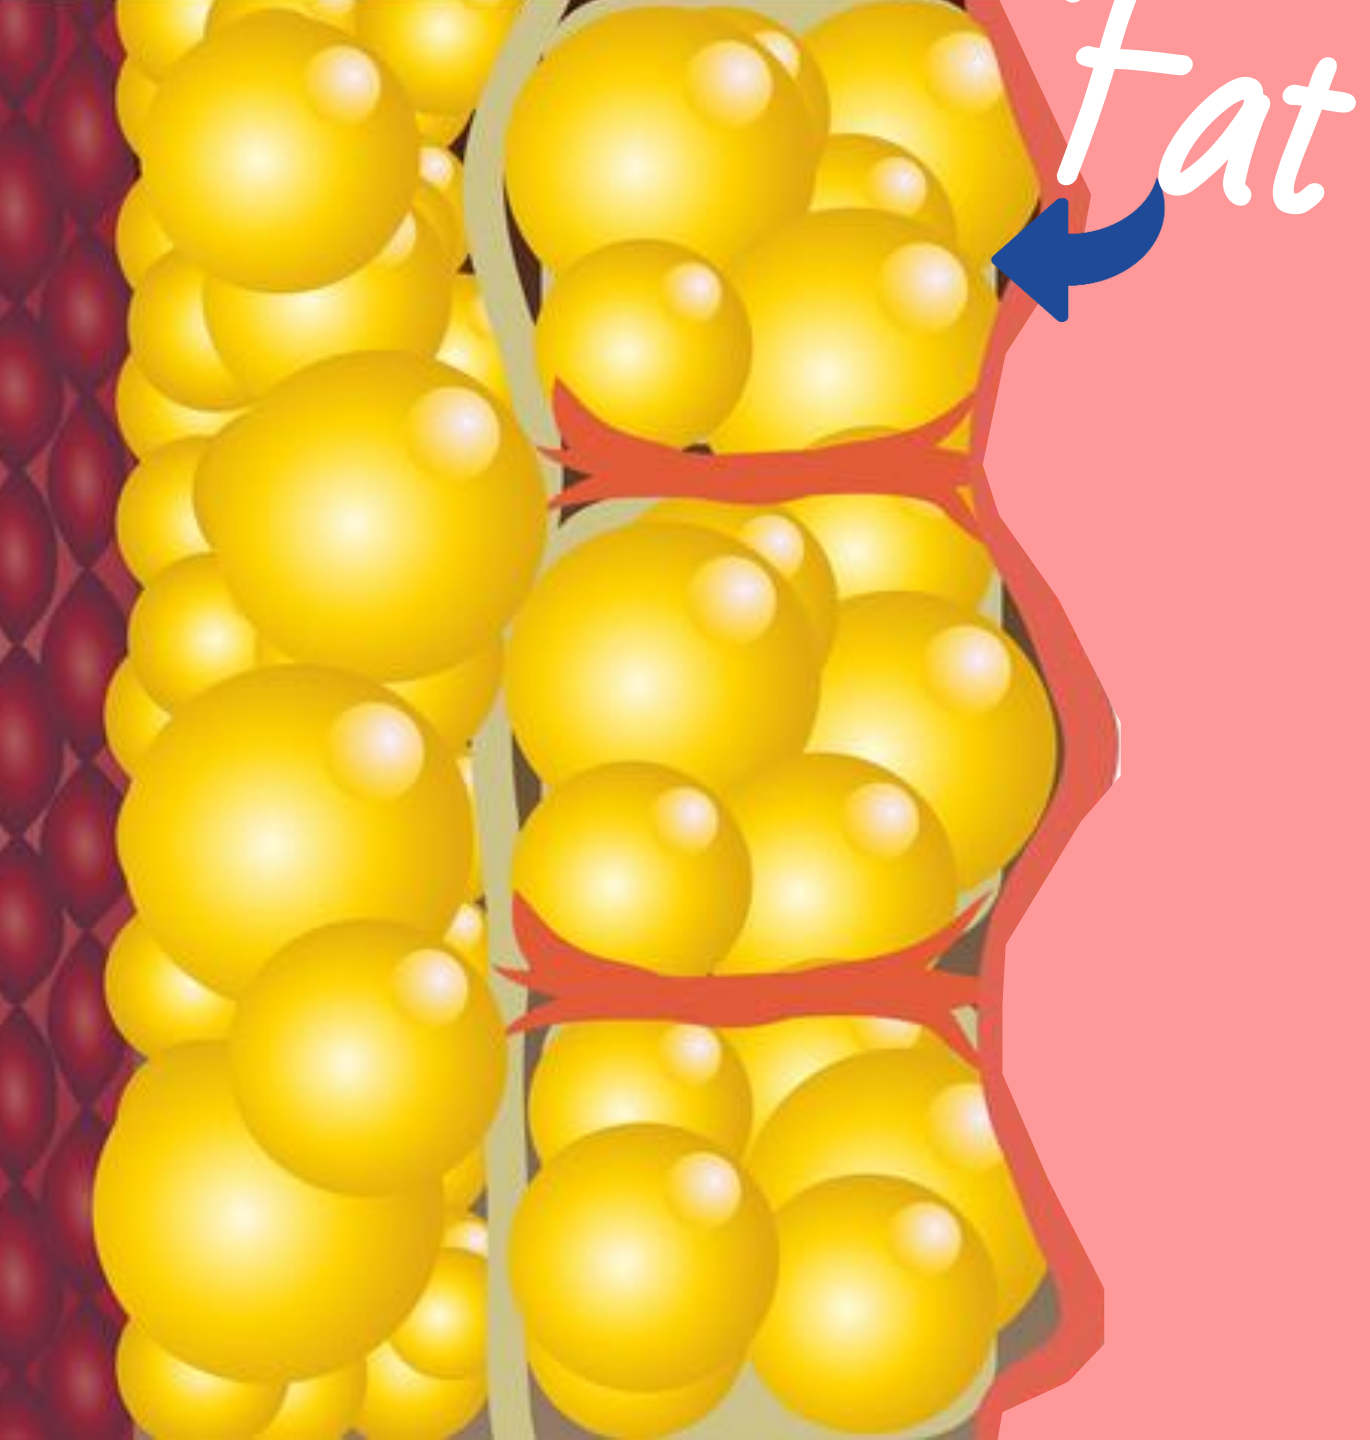

IDEAL

4

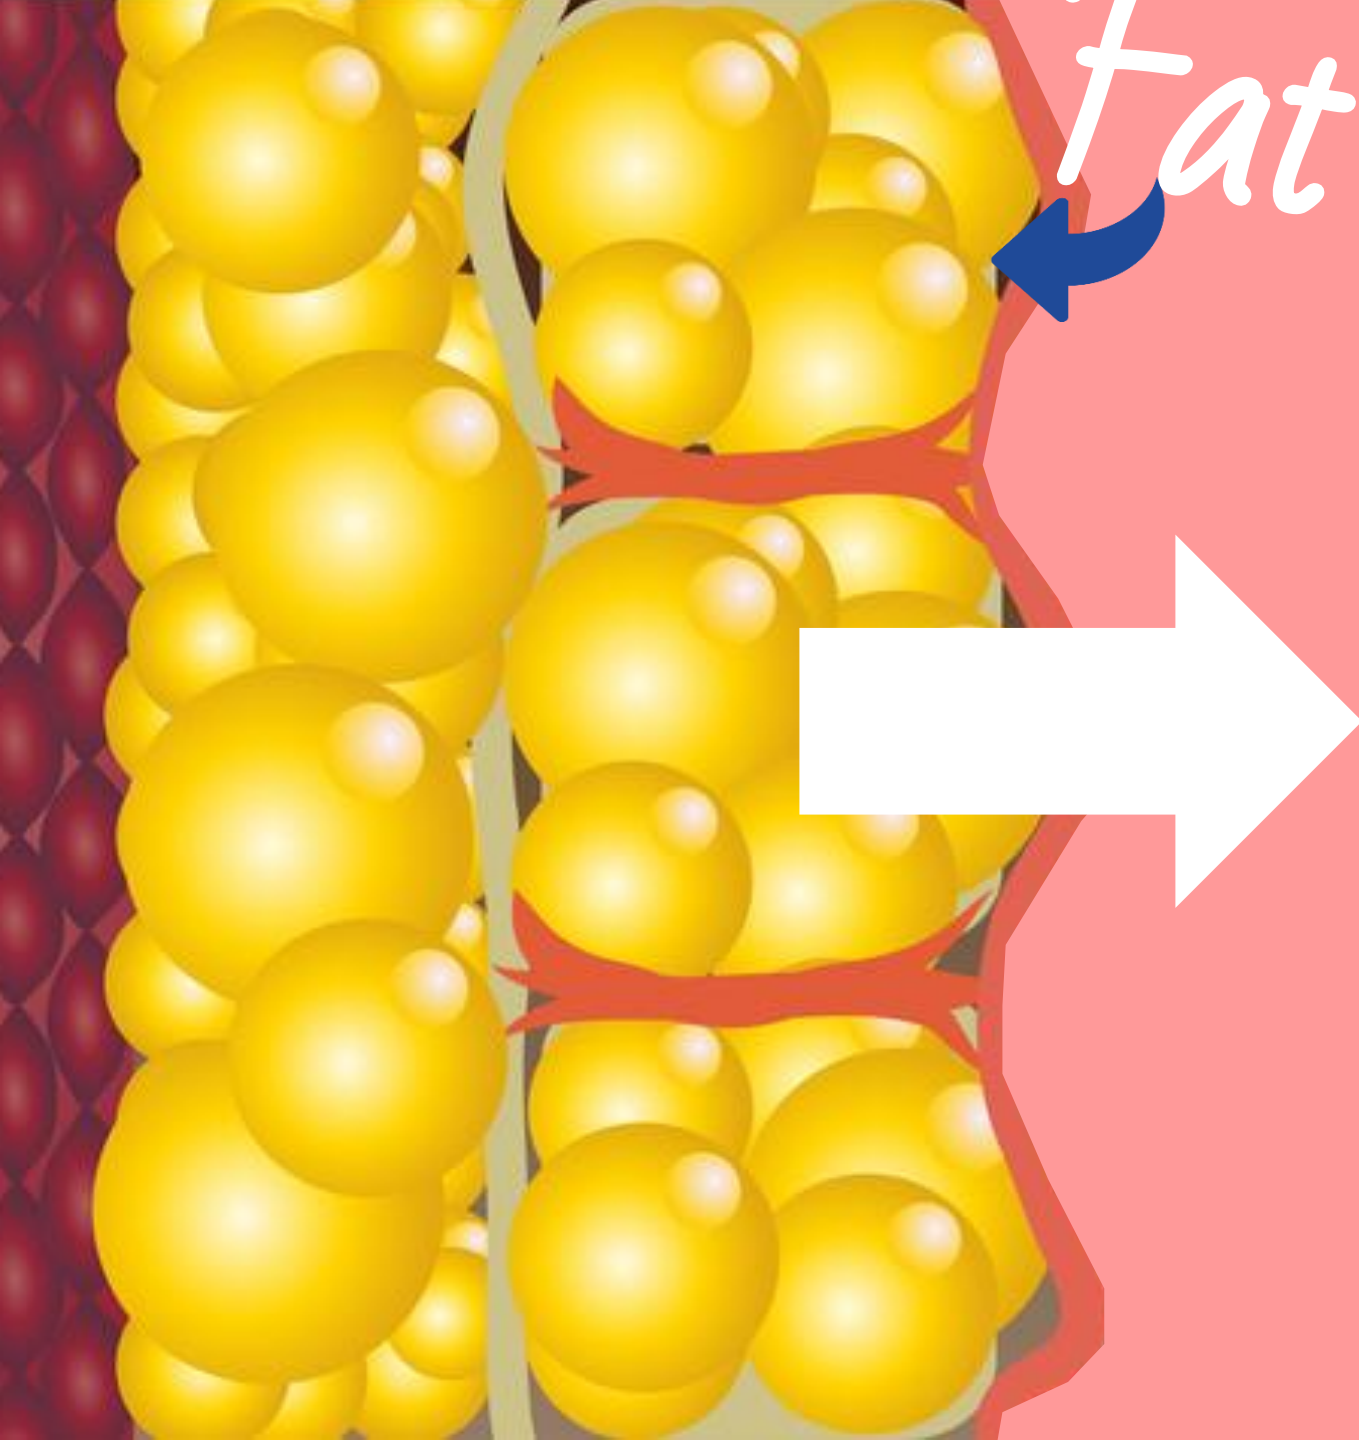

- Ribs easily palpable with minimal fat covering
- Waist easily noted when viewed from above

ATL

Cystic Endometrial Hyperplasia

The background of the slide features a dark, grayscale image of medical syringes. One syringe is prominently visible at the top, with its plunger and needle assembly. Below it, another syringe is partially visible, showing its scale. The syringes are slightly out of focus, creating a clinical and medical atmosphere.
