

Dog Name: Zander

Dog ID: Type of Evaluation: Breeder Evaluation

Date: 11/24/2021 Evaluator: Helen West

Behavior Checklist

Page 1

Reason for

1.

ANXIOUS IN UNFAMILIAR LOCATIONS - Initially anxious during first visits to unfamiliar locations. Exhibited as increased or inhibited activity, cautious and/or less responsive or focused

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Comments: Slightly increased energy in the environment, especially after investigating the novel objects. spends some time by the fence. Moves to handler directly and follows, demand barks.

2.

FEAR OF NOISES - Startle, tense body language, hurries, escape, or displacement behaviors when exposed to noise such as car horns, hair dryers, vacuums, banging

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Comments: barks when he hears noise. Moves towards vac with handler, seeks vm support, quick recovery. Ears pin and slight rush with can drop, needs handler support but investigates.

3.

FEAR OF NOVEL OBJECTS - Fearful, avoidant or suspicious of unfamiliar objects, which could be anything, but common examples are plastic bags, statues, yard equipment, balloons, etc.

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Comments: consistently becomes activated with statues but continues to go back to them. Mild compress with umbrella and slows slightly. Improves with exposure, seeks vm support.

4.

FEAR OF UNDERFOOTINGS - Fearful, nervous, apprehensive of various walking surfaces
☐ Slippery Floors ☐ Gratings ☐ Other

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Comments:

5.

FEAR OF DOGS - Inhibited response to other dogs on leash or off leash such as low body posture, pulling back, head low, apprehensive, avoidant, hackles, withdraws, reluctant to proceed, watches

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Comments:

6.

FEAR OF STAIRS - Hurries, refuses, or hesitant on stairs
☐ open back stairs ☐ open grate stairs ☐ up stairs ☐ down stairs ☐ closed stairs

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Comments: Slight hesitation at first but goes up with handler encouragement

7.

FEAR OF TRAFFIC - Tense body language, tail low or tucked, change in activity level, startle, retreat, escape in response to sight and sounds of vehicle traffic

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Comments:

8.

SEPARATION ANXIETY - Restless, vocalizes, and /or becomes destructive when left alone
☐ in crate

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Comments:

9.

HYPER -ATTACHMENT - Overly attached to primary handler, seeks to return to primary handler when handled by others

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

10.

FEAR OF STRANGERS - Fearful, nervous, apprehensive with strangers, cautious, avoidant,

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Comments:

11.

BODY HANDLING CONCERN - Avoidant, anxious, fearful and/or aggressive when handled for non-invasive activities in a manner typical of a vet exam, grooming and/or nail clipping
☐ Nails ☐ Restraint

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Comments: slightly fidgety and slightly inhibited once it it over. Good recovery

12.

RETREATS WHEN REACHED FOR - Moves head or face away when reached for by familiar persons

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Comments:

13.

HARNESS HANDLE ON BACK SENSITIVITY - Drops rear quarters when harness handlelays

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

14.

AVOIDANCE OF BLOWING FAN - Fearful or avoidant when walking past a blowing fan

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

15.

BODY SENSITIVITY TO OBJECT CONTACT - Inhibited by physical contact with objects other than harness handle on back. Manifested by change in energy, mouthing the harness or other object, inhibited reaction or slowing down and/or avoiding or freezing when placing item over head or wearing items such as dog jackets or body of the harness, hypervigilance with foot placement, avoidance of tight spaces, focus 2-3 feet in front of the dog

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

☐ Collar pressure ☐ Stepping on leaves, twigs, etc. ☐ Tight Spaces ☐ Head into harness

Comments: slight irritation, turns to bite once, slight slowing sits once. Responsive to handler.

16.

ANXIOUS ABOUT RIDING IN VEHICLES - Avoids getting into vehicle, does not settle when riding

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

17.

INHIBITED OR PASSIVELY AVOIDANT WHEN EXPOSED TO POTENTIALLY STRESSFUL SITUATIONS - Copes with stress poorly, evidenced passively such as shutting down, avoidance, withdrawal, displacement activity such as avoidant sniffing and/or quitting as a response to stress

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Comments:

18.

ACTIVATED WHEN EXPOSED TO POTENTIALLY STRESSFUL SITUATIONS - Copes with stress poorly, evidenced by becoming more active such as faster movements, taking treats harder, more distracted or other displacement behaviors to release emotional energy

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Comments:

19.

EXCITABLE - Easily activated in response to stimuli such as, but not limited to, greeting a person, seeing another animal, being petted, anticipating going outside or for a walk or car ride; may whine in response to stimulus

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Comments:

20.

SLOW TO RETURN TO PRODUCTIVE EMOTIONAL STATE - It takes the dog a long time to recover its productive emotional state following exposure to an arousing or stressful stimulus situation.

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Comments: 40 seconds when playful with toy and will play keep away.

21.

FIDGETY WHEN HANDLER IS IDLE - Unsettled and/or pursues own interests when handler is idle
☒ demand barking at handler

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Comments: jumps for the food, tries to do the right thing. barks twice at handler.

22.

FEAR WHEN ON ELEVATED AREAS, DROP-OFFs, etc - Dog is fearful, apprehensive, hesitant near platform edges, or other elevated areas

Abs	VMild	Mild	Mod.	Sev.	N/A	RFR
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
